

School Council's Recipe Challenge

We found out that in Indonesia there has been a big earthquake and a tsunami that destroyed a lot of homes and buildings there. It is so sad because lots of people died in the disaster and now the people who survived need our help. They don't have much food or drinks there at the moment and they need shelters and medical supplies like bandages and medicine because lots of people are sick or hurt from bad injuries.

We decided that we would like to hold a special school lunch next Thursday on the 18th of October to raise some money and help the British Red Cross charity with their work on the Disasters Emergency Committee out in Indonesia.

We are challenging you to find out some Indonesian recipe ideas for either lunch or dessert that are yummy and healthy. Remember, they should be vegetarian too.

You can write or print them out and then put them in our classroom in-trays by register time on Monday morning, the 15th of October. In our meeting, we are going to be speaking to Said and Mary who will help us to vote on the special lunch menu.
