

# Making Sheep!

We are making sheep from cotton wool buds!  
This will create a nice woolly texture for the children to feel !

You will need:

- Cotton wool buds
  - PVA glue
  - Scissors
  - Brown card for the sheep's face/legs
- 1) Ask the children to cut the cotton wool buds into half
  - 2) Brush the PVA glue into a circle shape onto the card.
  - 3) Ask the children to tessellate the cotton wool buds into the circular pattern as seen above
  - 4) Cut out shapes for the sheep's face and legs. Draw a smiley face on your sheep, and you are finished!
