SCHOOL

## Let's explore the United Kingdom weather!

In the United Kingdom we have four seasons (Winter, Spring, Summer and Autumn). During these seasons we can witness different types of weather. Let's explore what type of weather we experience during each season! Can you create your own season collage?

### Key vocabulary:

- Weather
- Rain
- Sunny
- Cold
- Windy
- Spring
- Summer
- Autumn
- Winter
- United Kingdom

### Fun facts:

Spring is the start of the year. It is when the temperature increases and things start to grow again after the cold days of winter.

After spring comes Summer. This is usually the warmest season. It is when crops grow and we expect the sunniest weather.

Then comes Autumn and the temperature starts to cool down again.

Winter is the coldest, darkest time of the year.
