

Fractions

We are learning to:

be able to use fractions of shapes and quantities.

be able to find the half and quarter of something

be able to recognise and use 1, $\frac{1}{2}$, $\frac{1}{4}$ and their equivalent words whole, half, quarter.

To explore smaller quantities.

Fractions

10

How many pieces altogether?

How many squares would $\frac{1}{2}$ of this shape be?

How many squares of this shape would $\frac{1}{4}$ be?

THE MULBERRY HOUSE
SCHOOL

Your task

- Find $\frac{1}{2}$ and $\frac{1}{4}$ of each of the shapes, objects and quantities on your plate.
- Work with your partner.
- E.g. There are 10 smarties beside this packet.
How many would be left if I take $\frac{1}{2}$?
