To help you research, log into Espresso and type in 'world faith'. Have a look and see if you can find a religion to research - try to select one you don't already know a lot about so that you can learn new facts and continue to develop your understanding of others' beliefs and values. Think about the following questions: - Does it have a

					<p>symbol to represent the religion, if so what is the significance of this?</p> <ul style="list-style-type: none"> - Where is the place of worship? - Find out if they have a religious book. - Do they have any religious festivals that they celebrate? Make a list of each date and why/how they celebrate these.

1:15-3:00pm	Co-Curricular Activities Option A: How fun would it be to use a map to navigate yourself around your local area? Have a go at creating your very own map. Click the link below to help you with the instructions on how to create your map! MAP TUTORIAL Option B: Click the link below to access a pre-recorded workshop from the RAF Museum called 'Fantastic Flight'. THE RAF MUSEUM'S FANTASTIC FLIGHT WORKSHOP Password: HudsonFlight3	Co-Curricular Activities Option A: What would you want to pass on to future generations? Think about one value, belief or personal interest, select something that is really important to you and produce a short story or painting around this theme. You could put your story or painting in a time capsule and bury it somewhere safe or special to you! Option B: Make your own maze!	Co-Curricular Activities Option A: Virtually visit the Natural History museum and learn about the giant blue whale. Option B: Squaaaaaaaaaak! Captain Beaky the parrot needs a new home! You can research on Espresso to find out exactly what parrots need to survive. Design and draw a home for him, ensuring that he stays protected and happy.	Co-Curricular Activities Option A: Germs experiment... We know that germs are everywhere and that we can't see them. Here is a quick germs experiment that you can do at home to find out more about the power of soap and water! What you need: - Pepper flakes - Water - Dirty hands - Soap What you need to do: 1. Pour some pepper flakes into the	2:30-3:00 Research Project Sharing Time Meeting ID: 935-141-8162 Password: 6MTMhg ZOOM LINK

This video is roughly 15 minutes long.

Ahead of next week's Recount lesson, it would be a good idea to write down some notes and key words about what you learnt and explored during the workshop!

Using any materials you find at home, can you create your own maze?

Make sure you make it as challenging as possible so that the person cannot exit quickly.

Click the link below for some amazing maze inspiration!

[MAZE INSPIRATION](#)

water

2. Dip a dirty finger in the water with the flakes
3. The flakes should be attached to your finger
4. Place the finger with the flakes into the soap
5. Dig your finger with the flakes and the soap back into the flake water
6. See what happens!

All of the pretend germs move away because of the soap. This is why it is important to wash your hands with soap to get rid of all of the germs that are on your hand.

After you have completed this experiment, create a guideline for the public giving instructions on what they need to follow to keep safe during the pandemic.

Make sure to use imperative verbs!

Option B:

Research Easter Island

Begin your research by finding out where Easter Island is located in the world.

Learn about the giant stone statues on the Island. You could

				produce your own statue replicas or you could create some observational drawings of them.
