Consider what you liked or didn't</p>

- tacky craft glue - ordinary craft glue probably won't hold well enough
- hole punch
- paint brush
- leaves, sticks and twigs from the garden in assorted shapes and sizes

How to:

1. Paint your cardboard square with acrylic paint and allow to dry
2. Arrange some nature items on the painted square to look like an insect to get your basic design
3. Remove the items and then place them back on with tacky craft glue to hold them down
4. To make an eye, punch a hole from a leaf and use the circle you have removed as an eye (or find a naturally occurring round shape from nature)

You will each have 3 minutes to present this in the afternoon when we come together at 2pm, we are looking forward to hearing your presentations!

like about it to include detail in your review.
