

W/C: 03.07.2023

**This week
we are
learning
to...**

Maths:

This week in our Maths Number lesson, the children will use simple algebra methods to convert roman numerals. At home, create a code using roman numerals and encourage your child to crack the code.

Literacy:

This week in our Literacy lessons, the children will focus on reviewing and editing their work to ensure no grammatical errors are being made. At home, encourage your child to thoroughly check any piece of writing they do, making sure they are using the correct tenses, remembering their capital letters and punctuation.

Science

This week in our Science lesson, the children will understand the impact caused by waste, they will be identifying the four steps of how glass, food and paper are recycled. At home, encourage your child to dispose their waste into the correct bin. Talk about why it is important for us to use different bins for different objects.

Project

In our Project lesson, the children will look at how video games work, including the pros and cons of video games in general. At home, encourage your child to look at the different educational games and discuss the benefits of these.
