

W/C: 05.06.2023

**This week
we are
learning
to...**

Maths:

This week in our Maths lesson, the children will identify, name and write equivalent fractions of a given fraction. At home, give your child a set of different fractions and encourage them to find the equivalent fraction.

Literacy:

This week in our Recount writing lesson, the children will use suffixes and prefixes to recount what they did during the half-term structuring their writing into three paragraphs. At home, encourage your child to make a list of words that contain a suffix and prefix when they are reading.

Science

This week in our Science lesson, the children will continue to understand how magnets work. At home, encourage your child to research why magnets are important, exploring the earth's magnetic fields.

Project

In our Project lesson, the children will continue to learn about the history of Olympic Games. At home, encourage your child to compare and contrast how Olympic Games have changed overtime.
