

W/C: 26.06.2023

**This week
we are
learning
to...**

Maths:

This week in our Maths Number lesson, the children will understand and read Roman numerals. At home, encourage your child to use their understanding of the Roman numeral systems and create several addition or subtraction sums. They can then get another family member to calculate these. Have fun!

Literacy:

This week in our Creative Writing, the children will learn to write a formal show review for The Lion King. At home, encourage your child to complete a book review on their favourite show or book, encouraging them to be very honest about how they felt whilst watching/reading.

Science

This week in our Science lesson, the children will continue to learn about sustainability, look at where energy comes from. At home, encourage your child to look at alternative energy called renewable energy.

Project

In our Project lesson, the children will continue to recognise the importance of materials that toys are made out of. At home, encourage your child to explore around the house/garden to see if there are any materials they can use to create their own toy/game.
