**This week
we are
learning
to...**

Personal, Social and Emotional

This week, the Hedgehogs' class will be taking on the very important role of Firefighters. We will be looking for the children to immerse themselves in role-play, working alongside peers. The children will be supported in dealing with conflicts as well as using their communication skills to share their experiences. Try at home to schedule play dates with other children to support their social interactions.

Literacy

Our story this week is 'How To Catch A Star' by Oliver Jeffers. The children will be supported in listening to the story and we will be using the pictures on each page for the children to discover the story for themselves. As a class we will look at retelling the story though role-play using a variety of props. At home, you can support your child in making up their own stories alongside some toys or puppets.

Expressive Art and Design

This week, the children in the Hedgehogs' class will be looking at the artist Claude Monet and her beautiful water colour paintings. The children will be supported in being creative and having ideas to make their own watercolour piece of art. We will be using this to look further into our colours and identify new colours when they are mixed. At home, support your child's mark making and encourage them to use colours for particular purpose.
