**This week
we are
learning
to...**

Maths

This week, the Hedgehogs' class will be looking at circles. We will be looking at how circles have no edges and are round, and beginning to point out circles in our environment as well as beginning to draw circles using pencils and crayons. At home, you can support their learning by doing a shape hunt looking for circles.

Literacy

This week, the children in the Hedgehogs' class will be looking at farm animals. We will explore some of our favourite stories about animals, such as "A Squash and a Squeeze" and "Old MacDonald Had A Farm". We will be helping the children learn how to focus and listen to stories as well as developing recall and knowledge about things they have learnt that day. We will help develop their key words about farm animals. Why not bring out farm toys at home to reinforce their learning?

PSED

This week we will be looking at our daily routines. The children will be learning all about their daily routines and about how to be more independent. We will explore role play scenarios where we take care of ourselves with hair brushes, tooth brushes and using zippers. This will help encourage their fine motor skills as well as build confidence. Why not try encouraging your child to take their own shoes off this week?
