**This week
we are
learning
to...**

Literacy

This week in our Literacy lessons, the children will be learning about co-ordinating conjunctions, conjunctions that join words that link together parts of a sentence. At home, encourage your child to use a variety of co-ordinating conjunctions when writing their sentences for their spellings.

Maths

In our Maths Number, the children will revise multiplication methods to apply to problem solving scenarios. At home, give your child a set of multiplication sums, as well as worded problems, encourage them to work these out using a variety of strategies.

Science

This week in our Science lesson, the children will conduct an experiment to find out if we can grow plants indoors. At home, encourage your child to do a similar activity, where they plant one seed in a cupboard and another outside and monitor the growth of each plant.

Project

In our Project lesson, the children will understand what the Trojan War was and be able to explain how the Greeks won the war. At home, encourage your child to research a similar story and to compare these using a Venn Diagram to show differences and similarities.
