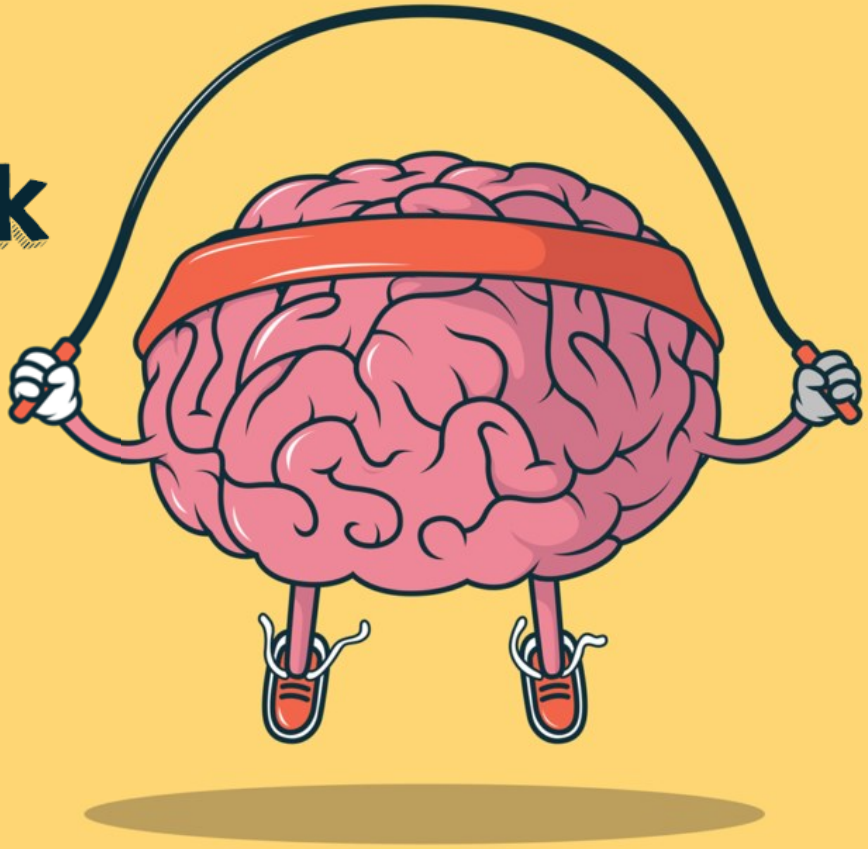
W/C: 24.03.2025

This week we are learning to...



Maths

This week, the Hedgehogs' class will be looking back at the numbers we have been focusing on this term, looking at recognition and the quantity of each of those numbers. At home, you can support this by singing number rhymes and supporting your child to use their fingers as a representation of each number.

Literacy

This week, we will be supporting the children with their pencil control, and their ability to make meaningful representations on paper. Asking the children questions related to their work is a great way for us to see their creative side. At home, you can start to support your child using colour for a particular purpose.

Project

This week, the Hedgehogs' class will be taking on the very important role of a vet. The children will be encourage to participate in role play alongside others showing care and concern for the animals visiting the vets. At home, you can help your child to do a research on their favourite pet.
