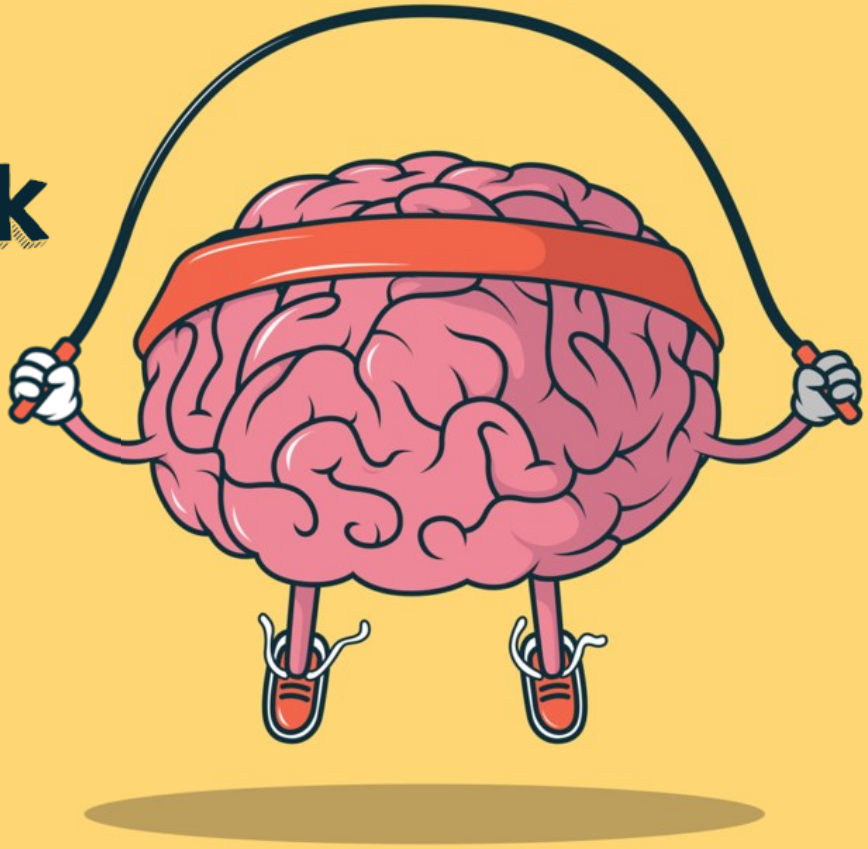
W/C: 10.03.2025

This week we are learning to...



Maths

This week, the Squirrels' class will be recapping the shape of a Circle. The children will be identifying circles in the environment and going on a shape hunt to find as many objects as they can that look like a circle. At home, you can encourage your child to use chalk to create their own circles in the garden or on paper. A great way to do this is by demonstrating large and small clockwise, and anticlockwise actions with the chalk.

Literacy

This week, the Squirrels' class will be creatively using tools to make marks in a cornflour mix. At home, you can use the end of a paintbrush, spoons, or fingers to make marks in a small tray or a small plate of flour. You could also encourage the children to make straight lines or circles. At home, you can support your child to do this by encouraging them to hold the writing material with their thumb and first two fingers. This is known as the 'Tripod grip'.

Project

This week, the children will be discussing and role playing their experiences with the dentist. At home, your child can help to brush their own teeth. It is a great idea to discuss what foods are good for our body and teeth, and what foods are unhealthy and will damage our teeth.
